Please spend some time and go through this information carefully so that you do not miss any opportunity that NMIMS may have to offer you. The SRB contains a Student Undertaking page at the end of the document, which you are required to sign and submit to your course coordinator by the suggested date.

We would also like your support to maintain and enhance the University's image and uphold its values. We value your feedback.

14 Feedback Mechanism:

NMIMS has a well-established online feedback mechanism through the Student Portal for communication of perceptions. The components of this feedback mechanism are:

- 14.1 Feedback at the end of the third week of every trimester/Semester. Dean / Director /Programme Chairperson/HOD will meet students personally, if applicable.
- 14.2 Online Feedback through the Students Portal is taken using a questionnaire, preferably in the last session of every course in each trimester/Semester. This feedback is compiled, and statistics are placed before each faculty member by the end of the trimester/Semester.
 - 14.2.1 All students should get involved in this mechanism seriously, as it truly helps the NMIMS improve the quality of services and teaching provided.

15.1 Mentoring Programme:

Students (as applicable school-wise) have been assigned faculty mentors whose role is to help assimilate the NMIMS culture, facilitate intelligent choice making regarding the selection of courses, and help identify resources needed by all students. Do meet your faculty mentor regularly, as per their convenience and availability.

15.2 Psychologist and a Counsellor:

A Psychologist is a non-judgmental, qualified professional who understands, ensures privacy and confidentiality and guides you by giving choices so that you make the right decision. This process is facilitated using realistic, structured, and research-based therapy.

Managing emotions is vital to ensure all-rounded progress in life. We need to break down the old walls of myths and misconceptions to learn something new. Visiting a counsellor (Psychologist) enables us to relearn more helpful, progressive, reality-based thinking.

Personal counselling is essential at every step in life, even at the corporate level. What we think about situations affects our subconscious mind and interferes with our present-day life.

As human beings, at any given time in life, we could go through challenges and have no one to share with or guide us. We often do not share our issues with family or friends due to the fear of upsetting them. We worry that perhaps they may not understand or could become judgmental. At such times, we recommend Personal Counselling.

- i. "I cannot concentrate or focus nor can I sleep, at times, I get so scared that I go blank in my exams!"
- ii. "Since the time he left me, I cannot put my attention to anything, I will not be able to live anymore.....can't bear it if she is not in my life!"
- iii. "I have lost my confidence, I feel worthless /hopeless; no one loves me. I don't want to live anymore."
- iv. "I feel nobody understands what I am going through..." (People become judgmental instead of understanding and supporting) "I feel people invalidate my feelings."
- v. "I do not know whom to share my feelings with. Where do I seek help? Who will be able to help me?"

Have you had any of these repetitive thoughts or faced a rejection that you cannot cope with?

Have you reacted very angrily at first and then later realised that reacting to the event was not needed, and in the process, you harmed the relations you had with your friends and family? Do you not know what went wrong then? Do you not understand what triggered you?

Just as we would treat a sprain with some ointment, we try to heal our emotional pain independently. When the sprain is not healing, we visit the doctor, and similarly, one sees the psychologist sometimes when we are unable to clear our emotional challenges on our own. The counsellor needs to check how deep your wound is, and usually, you are helped through therapeutic counseling.

We may be unaware of our behaviour's implications on others, but it eventually could affect our relations in daily life at home, in class, or at work. When past emotional situations are not dealt with therapeutically, we could develop unhealthy negative thoughts and feelings that we need to be aware of. They could again lead to complications and affect our performance, decision making, logical thinking, studies, relationships, and career. This continued stress can gradually affect our body and physiological health, causing hypertension, respiratory ailments, gastrointestinal disturbances, migraine and tension headaches, skin conditions, and ulcers. Understanding the mind-body connection is essential.

The biggest myth is that being emotional is to be weak, so often, we push all our emotional issues under the carpet and then take up unhealthy habits like smoking, drinking, and substance abuse to escape from our reality. We hope to feel better, which lasts only for a short time. On the other hand, creating long-term damage may lead to unhealthy dependency.

NMIMS wants to ensure the holistic development of the students. We understand that to perform at your highest potential in your academic journey, your emotions and mental health need to be well-regulated and balanced. Therefore, have appointed a team of psychologists who you can connect with via call or email and set up a session to discuss any concerns that may be affecting you.

21. Safety Guide for Students on Floods, Fire and Earthquakes

NMIMS gives utmost importance to safety of its students. It prepares students for natural hazards.

The safety measures for some natural disasters, such as 1) Floods, 2) Earthquakes and 3) Fire, are highlighted briefly.

21.1 Floods: Precautions to be taken in case of Floods are given in Table 1 below.

Before Floods	During Floods	After Floods
<ul style="list-style-type: none"> Identify and visit elevated areas in and around the Institute as places of refuge during a flood Be aware of drainage channels and other low-lying areas known to flood suddenly. Consult and involve local authorities in the institutes Check for the monsoon alerts for the heavy rains declared by the Municipal Corporation Do not travel long distances on dates indicated as 'Monsoon Alerts'. Contact the Institute if there is any pre-planned activity or examination, or any other important work on that day, and try to adjust it on some other day Keep locally available equipment such as ropes, batteries, radio, plastic bottles, and cans handy during the rainy season. This can help you to plan your rescue Prepare a food kit including emergency food items such as biscuits, snacks, drinking water, and so on 	<ul style="list-style-type: none"> Evacuate to previously identified elevated areas Your life is most precious. Avoid saving valuables at that moment. Disconnect electrical appliances. Turn off utilities at the main switches or valves if instructed to do so Don't touch electrical equipment if you are wet or standing in water Do not walk through moving water. Six inches of moving water can make you fall If you have to walk in water, walk where the water is not moving Use a stick to check the firmness of the ground in front of you Avoid floodwaters; water may be contaminated by oil, gasoline, or raw sewage Water may also be electrically charged from underground or downed power lines Listen to the radio for advanced information and advice. Don't spread rumors Move vehicles to the highest ground nearby Do not enter floodwaters on foot if you can avoid it Never wander around a flooded area Drink clean water 	<ul style="list-style-type: none"> Stay away from downed power lines, and report them to the Security Officer Leave the Institute / home only when authorities indicate it is safe Stay out of any building if it is surrounded by floodwaters Use extreme caution when entering buildings; there may be hidden damage, particularly on foundations Floors in the building will be slippery due to water and mud. Walk carefully on the slippery floor. Wear appropriate footwear. Do not use slippers during the rainy season Watch out for loose flooring, holes, and dislodged nails Clean and disinfect everything that got wet Discard any food items which may have got wet Inform them about the damaged drainage and sewage systems in and around the building to the authorities as soon as possible. These can be a major health hazard First, protect yourself and then help others.

21.2 Earthquake: Precautions to be taken in case of earthquakes are displayed in Table 2 below:

Before Earthquake	During Earthquake	After Earthquake
<ul style="list-style-type: none"> In a hostel or at home, keep heavy objects on lower shelves so they will not fall on you during an earthquake. Make sure your water heater and gas cylinder are secured and intact. This will ensure that it will not fall during an earthquake and hurt someone or start a fire. Keep a torch and a mobile handy. Keep the corridors in the hostel/house clear of furniture and other things, making movement easier. 	<p>If you are at home or inside a building</p> <ul style="list-style-type: none"> Do not rush to the doors or exits; never use the lifts; keep well away from windows, mirrors, chimneys, and furniture. Protect yourself by staying under the lintel of an inner door, in the corner of a room, under a table, or even under a bed. <p>If you are on the street</p> <ul style="list-style-type: none"> Walk towards an open place in a calm and composed manner. Do not run and do not wander round the streets. Keep away from buildings, especially old, tall, or detached buildings, electricity wires, slopes, and walls, which are liable to collapse. 	<p>If you are at home or inside a building</p> <ul style="list-style-type: none"> Expect aftershocks. Be prepared. Stay where you are and do not come out immediately. Keep calm and obey any instructions you hear after you come out Turn off the water, gas, and electricity Do not smoke and do not light matches or use a cigarette lighter. Do not turn on switches. There may be gas leaks or short circuits. If there is a fire, try to put it out. If you cannot, call the fire brigade. Immediately clean up any inflammable products that may have spilled (alcohol, paint, etc.). Avoid places where there are loose electric wires, and do not touch any metal object in contact with them. Do not drink water from open containers without having examined it and filtered it through a sieve, a filter, or an ordinary clean cloth. Eat something. You will feel better and more capable of helping others. If the building is badly damaged, you will have to leave it. Collect water containers, food, and ordinary and

Provide them with first aid. Do not move seriously injured people unless they are in danger. If you are outside <ul style="list-style-type: none"> If you know that people have been buried, tell the rescue teams. Do not walk around the streets to see what has happened. Keep clear of the streets to enable rescue vehicles to pass. Keep away from beaches and low banks of rivers. Huge waves may sweep in. Keep updating yourself with the latest information on earthquakes through radio or TV.

21.3 Fire: Precautions to be taken in case of fire are given in Table 3 below:

Before Fire	During Fire	After Fire
<ul style="list-style-type: none"> Identify the fire hazards and where fires might start, e.g., laboratories, storerooms, kitchens, and other such places. Identify all the exit routes of the Institute. Check the adequacy of the firefighting apparatus and its maintenance. 	<ul style="list-style-type: none"> Do not panic. Shout for help. Do not run. Do not waste time collecting valuables. Inform the fire brigade about the fire and alert neighbors. If possible, use a fire extinguisher. Do not take shelter in the toilet. Shut all the doors behind you while leaving the room to prevent fire from spreading everywhere. Do not use the lift to escape. Use the nearest means of escape and the staircase available. Exit ground level instead of the terrace. Report about your safe escape and any other information to the University authorities, fire brigade, or police present at the site. <p>If trapped or stranded:</p> <ul style="list-style-type: none"> Stay close to the floor level. Cover the gaps of the door with any piece of cloth available. Do not jump out of the building. Signal or shout for help. Stop, drop, and roll on the ground and cover with a blanket; pour water on the body Dial 101 or 22620 5301 for the fire brigade Give the fire officer a detailed address, the nature of the incident, and the telephone number from which you are calling. Preferably, use a landline. Keep down the receiver and wait at the same spot. Control Room will call back to verify the call. Wait for the Fire Brigade to arrive and co-operate with the firefighters. 	<ul style="list-style-type: none"> Don't re-enter or permit anyone to enter the building, unless the fire officials have permitted entry.

21.4 In case of any injury caused or loss of life to the negligence of the student and/or due to natural calamities the institution shall not be held liable in any form of compensation and/or responsibility whatsoever.

2. Placement Guidelines:

NMIMS is a premier University of the country, and the B-school has been in existence for over four decades. Over the years, it has earned recognition from industry & professional associations, corporates, peer group institutions and accreditation agencies. The University has a strong industry connection and is a preferred choice for the corporate sector for talent. Companies view NMIMS as a great place to recruit potential young managers and business leaders. Placement Support is offered to various programs across Campuses and Schools. Leading companies across sectors consider our students for recruitment/ internships. Our esteemed alumni occupy senior positions in leading companies across sectors and have always supported us in placements.

The Placement Office is an interface between NMIMS & the Industry for facilitating internships & recruitment opportunities for students. Efforts are made to market the programs with their merits.

Placement officials actively network with the corporate sector with an endeavour to get companies to open suitable job & internship profiles for the batch. They reach out to companies across sectors and locations for appropriate opportunities for students, showcasing the brand NMIMS, the quality and diversity of the batch, providing timely customized services, continuous communication, and offering support that would facilitate their participation in placements.

Placement officials mentor & guide the Students Placement Committee, who are actively involved in the activities, connecting with companies, meeting company officials for presentations, operational aspects and in coordinating various activities during the placement processes.

The placement guidelines are devised in the larger interest of the School and the batch, in consultation with students and faculty. Each of the Schools shares with the batch guidelines related to resumes, PPT, Internships, PPOs/PPIs, Final Placements, etc. The School reserves the right to change, modify the guidelines in the best interest of the batch. Students are expected to abide by the guidelines during placement processes. In the event of non-conformance with the placement guidelines, the School reserves the right to initiate corrective action.

Generally, students of the post-graduate programs are keen to participate in placements. However, many from the undergraduate programs opt out or do not register for placements as they have alternative career plans. This approach acknowledges the diverse goals and aspirations of students and features the institution's commitment to supporting individual choices that align with personal interests and career aspirations. These paths include pursuing further higher studies, preparing for entrance exams of professional programs, preparing for civil services, defence forces, government offices, engaging in family business ventures, entrepreneurial endeavours, etc.

Industry-Institute Connect

To optimize industry connect, effective interventions from the companies are sought so that students get to know of the opportunities available in the market, help to enhance their skill sets & then direct their efforts to seek profiles of their choice. Companies are encouraged to involve with the batch for campus engagement activities, thereby deepening the association and leading to a symbiotic relationship between NMIMS and the Industry. Guest talks, competitions, seminars, workshops, soft skills training, technical training, etc. are a great value add. These involvements bridge the gap between expectations of recruiters and the knowledge & skill sets of students.

The Placement process typically involves

- Batch Preparation
- Pre Placement Talks
- Internships/Projects
- Final Placements

Batch Preparation

The Batch Preparation Program is to enhance the suitability of candidates and orient them to industry practices and expectations.

- Interactive sessions with alumni/industry experts in various profiles that help students to gain clarity on role/fit, understanding expectations of the company, future prospects - career evolution, right approach for cracking interviews, listen to first-hand experience & get a feel of life in a particular profile, etc.

- Interaction with seniors who have undergone internships in companies.
- Assigning seniors or alumni as mentors to guide students.
- Mock interviews with alumni/corporates to get direct feedback from people in relevant industries.
- Guest talks and workshops on various topics from corporates.
- Resume building as per guidelines
- Technical, Soft skills training, etc.

Prior to the commencement of the selection process, it is expected that students have a fair idea about their interest, sector and specialization and direct their efforts accordingly. This clarity will help students land a good internship/job.

Students are expected to research about company, the business, the sector, financials, other players in the sector, etc., and be prepared with a background and fact file before the process. Also, some additional information – the number of interns/recruits in the past, whether the company has a PPO policy, the experience of seniors who interned with the company etc., will be of help.

The Placement Office also involves companies in several Campus Engagement activities – corporate contests, projects, workshops, seminars, and guest talks etc. that benefit a large number of students and also help in promoting the excellent quality of the batch.

Pre-Placement Talk – PPT

PPTs are a medium wherein the company officials disseminate information regarding their company, the profile, the compensation, etc. and clarify students' queries.

Internships/Projects

- The Placement Office makes all efforts to reach out for internships across varied sectors, companies, and profiles. Based on one's interests and capabilities, one should seek internships. Choosing the correct company for internships and performing up to the mark is of the utmost importance.
- The Internships are not only a window to the corporate world but also a relationship-building tool for NMIMS. It allows companies to look at the talent at NMIMS, thereby strengthening Final Placements.
- Internships are a great learning platform for our students and go a long way in shaping the learning obtained in the classroom. This experience is of immense use to students to enable them to acclimatize themselves to the intricacies of the corporate world.
- The project is expected to build on the theoretical learning with practical experience and help students to discover areas of interest and future career options, identify the gaps in their learning, which they can attempt to fill in.
- Interactions during the internships, both with other interns as well as employees, help students to understand the expectations/needs of the organisation, the sector in general, to identify the gaps in their learning, in orienting oneself towards the sector and developing the required skill sets to emerge as the most suitable candidate.
- Internships also hold a special significance as it is an apt mechanism for companies to spot bright talent early. Many companies have a structured internship process, which is used as a 'testing ground' to gain a direct understanding of the skill and ability of students, leading to the declaration of PPOs/PPIs. NMIMS also encourages candidates to work towards such offers that are based on internship performance.
- Pre-Placement Offer (PPO) is an Offer by the company to the intern acknowledging the excellent work done during the internship. Pre-Placement Interview (PPI) is an opportunity by the company for the intern to be directly selected for the interview for final placements. Thus, the students should be careful in applying to the companies and should put in all efforts to convert the internship into an Offer.
- Internships are generally monitored, evaluated by a faculty guide, with periodic report submissions, evaluations, Viva Voce, etc.

Final Placements

- Leading companies across sectors aspire to recruit students of NMIMS. Companies devise the eligibility criteria and selection process and have their own set of characteristics or qualities that they look for in a candidate.

- The process of selection starts with inviting applications based on the eligibility, job description, compensation details, etc., shared by the company. The profiles of interested students are shared with the recruiter.
- The placement process is facilitated by the Placement Team. However, it is the effort of the student that gets him/her selected for the job. Not getting selected in the first few companies should not lead to panic. Students are advised not to switch profiles in anxiety or haste.
- The selection process could be physical or virtual & there could be multiple rounds – case analysis, group discussion, group exercises, interviews, etc. Reasons like location, family issues, etc., should not be constraints to students. They are expected to be mobile and have the capability to adjust, adapt, and respond to emergent situations successfully.
- Students who wish to drop out of the placement process, formally notify the Placement Office vide the ‘Opted Out Form’ mentioning the reason, which could be higher studies, entrepreneurship, family business, seeking placements on their own with company details, etc.

At NMIMS, leading companies across sectors compete to participate in placements offering coveted & niche profiles with matching packages to students across programs. Hence, students get a plethora of opportunities to choose from.

2 Guidelines for International Student Exchange Program

3.1 Introduction

NMIMS Deemed-to-be-University has developed an extensive International Students Exchange Program to provide a cross-cultural exposure and a global perspective to the students apart from classroom teaching. This is managed by the Department of International Linkages of the University. The Exchange Program has become increasingly popular with the students, and every year, students get a chance to spend semesters/trimesters at a partner Institute. With the dedicated efforts of the International Linkages department, efforts are ongoing to have a larger number of students avail of this unique opportunity in every school. Students at NMIMS also benefit from interacting with overseas students who visit us as part of the NMIMS Inbound exchange program and International Immersions.

3.2 Preamble

In an increasingly interdependent world, it is imperative for the NMIMS Deemed-to-be-University to have an internationalization agenda. This policy on internationalization seeks to clarify the philosophy behind the NMIMS Deemed-to-be-University’s Internationalization program and sets out the eligibility of students to apply for an international exchange program. It also sets out the selection criteria and guidelines for assessing applications and the expectations from the students going for the exchange program.

This policy also lays out the facilities for international students in our programs and their expectations of them. We expect our foreign students to conduct themselves at par with other Indian students.

The unique pedagogic innovations

The choice of pedagogic methods at the School of Economics is designed to keep the teaching learning process student-centric. Non-classroom learning is an effective method where students seek and acquire knowledge outside the classroom rather than having it ‘imparted’. Over and above classroom teaching, a lot of emphasis is placed on group learning.

- Group learning: Academic groups of 5-6 students would be encouraged to work in a group on an issue; where students learn to research, discuss their findings with peers, negotiate their point of view and arrive at a conclusion.
- Games & Experiments: Learning by playing.
- Guest speakers and Panel Discussions: Interaction with industry experts.
- Workshops: Full day workshops on a wide range of academic and non-academic courses.
- Film & Drama - Viewing socially relevant films & drama to build social sensitivity.
- Research projects – Primary and secondary research projects on socio-economic issues.
- Summer Internship – Summer training at the end of each year for a month
- Independent studies - Self learning through research in the final year

Co- Curricular activities

The emphasis is on the overall development of the student, not only in academics, but also in co-curricular activities. We believe that in order to have a well-rounded personality and a balanced growth of intellect, co-curricular activities should be an integral part of education.

- Association and Clubs: Students will be encouraged to form and head various associations and clubs to cater to diverse interests. Managing these clubs will not only give a platform to nurture the students’ budding talent, but will also help them to learn organizational skills and administration.
- Sports: Students will be actively encouraged to participate in sports and play individual or team games. This will help to promote a healthier and more disciplined lifestyle and foster team spirit among the students.
- Social Work: This is a forum, which will help the students, touch the lives of others and in the process; make a difference to their own. Students will help the underprivileged and take on projects on a continuing basis. This will help students become more socially conscious and responsible.
